Don’t fail to rescue those who are doomed to die. Don’t say, "I didn’t know it!" God can read your mind. He watches each of us and knows our thoughts. And God will pay us back for what we do. (Proverbs 24:11-12)

Speak for those who cannot speak for themselves; defend those who cannot defend themselves; and plead for the cause of those in need. (Proverbs 31:8-9)

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness. (Declaration of Independence)

Is it a transgression to flagrantly eradicate the life of another person? On the surface, such a question may seem absurd. "Of course it is", any sane and moral person would say. But sadly, in January 1973, the U.S. Supreme Court decision in Roe vs. Wade made such an atrocity legal by reversing legislation against the criminal act of murdering unborn babies by way of abortion. The Supreme Court’s blatant disregard for the lives of unborn children has attributed to the following alarming statistics:

1. Since being legalized, abortion has killed more than 45 million unborn babies in the United States.
2. On average, slightly more than one million unborn babies are murdered each year in America.
3. It is estimated that 725,000 abortions are performed yearly on unborn babies who are nine weeks or older. At this stage of pregnancy, the baby’s heart, brain, stomach, kidneys, and liver is functioning. Furthermore, at this point in time, the baby can feel pain.
4. Abortion is the foremost cause of death in the United States, surpassing deaths caused by heart disease and cancer combined.
5. About 95% of abortions are performed as a means of birth control. One percent is performed for physical irregularities of the child; one percent for incest or rape, and three percent to prevent the death or extremely serious injury to the health of the woman.

In order to justify their positions, many pro-choice advocates who support the Roe vs. Wade decision argue that a fetus is not a person. In like fashion, this disturbing viewpoint echoes the moral connotations of the Dredd Scott decision by the United States Supreme Court in 1856 that regarded Blacks as non-persons. Obviously, those lacking moral and spiritual convictions believe they have the right to choose who has worth; contending that a person meet certain criteria before he / she is granted a "human being".

During the past 31 years, medical and scientific findings have substantiated that life does indeed begin at conception; a fact that the U.S. Supreme Court conveniently overlooks. There are currently "fetal homicide" laws that define a fertilized ovum, embryo, and fetus as a human person during any period of maturation from conception to birth. These laws make it a criminal offense to cause injury or death to an unborn child as a result of violent conduct by an offender. If an expecting woman is attacked and killed, the assailant will be charged with two murders -- that of the mother and child. I find it interesting and sinister, however, that "fetal homicide" laws do not apply to pro-choice feminist who deliberately kill their unborn babies.
Misleading Arguments About Abortion

Argument: "It's my body...It's a woman's 'right' to choose!"

Rebuttal: A woman's body does not have two hearts, four lungs, two blood types, two heads, four eyes, four arms, four hands, four legs, etc. And what if she is carrying a male baby?? Does she also have a penis?? The truth is that the child growing within the woman is not her body, but a separate individual whose body belongs to God. How anyone can allege they have the "right" to kill an innocent baby is beyond rational reasoning. Let's for a moment accept the argument for a "right to choose because it's my body". Using the same rationale, does one have the "right to choose" drug use, alcohol abuse, suicide, and / or engage in prostitution (since it is your body )? Any society that permits the killing of innocent unborn children based on a woman's right to choose is practicing modern barbarism. The next section (methods of abortion) should unquestionably prove this point.

Argument: "It is not a human being...it's just a fetus."

Rebuttal: The depersonalization of an unborn child is a vile excuse to rationalize the extermination of its life. In the same manner as a newborn, toddler, and teenager, a fetus is a human person that grows and develops its own personality and capabilities in the course of time. Thanks to modern technology, recent studies have provided conclusive evidence that a fetus possesses active brain waves and can react to stimuli. It has a beating heart, its own circulatory system, and blood type.

Argument: "Since abortion is legal, it must be right."

Rebuttal: The United States Supreme Court has been wrong before. Recall the Dredd Scott case mentioned earlier (regarding slavery). And what about the recent ruling by the Supreme Court that gave local governments the right to force property owners to sell their homes for the "benefit" of economic development. They were wrong then and they are wrong now. If the U.S. Supreme Court enacted a law that authorized rape or child abuse as legal, would that make them right? Of course not! When our court systems make immoral decisions that oppress the innocent and unborn, those of us with moral convictions must take a stand for those who cannot speak for themselves.

Argument: "This is a private matter and the government shouldn't interfere."

Rebuttal: If a woman chooses to sell sexual favors, doesn't the government get involved? If a woman chooses to possess and use drugs, does not the government interfere? These are two examples of a host of private activities where the government intervenes. Now...it has already been proven that human life begins at conception. According to our Declaration of Independence, every human has the God-given right to life, liberty, and the pursuit of happiness. And it is the government's responsibility to defend and protect those inalienable rights.

Argument: "I'm personally against abortion, but I would not intrude my morality on others."

Rebuttal: This rhetorical doublespeak is generally used by some politicians during their campaign run. It is a "safe" and convenient statement to gather the support of Pro-Lifers while simultaneously attempting to appease the Pro-Choice camp. Since the United States is supposedly "One Nation under God", a politician should have the courage to uphold his personal convictions as it relates to national moral responsibility. If a statesman asserts he "opposes abortion, but....", then what about other moral issues such as racism, rape, and robbery; or is abortion... the brutal killing of an innocent unborn child, exclusionary? I'll leave that question to your conscience.
Argument: "Abortion should be legal for pregnancies resulting from incest or rape."

Rebuttal: In their attempt to gain consolation, the Pro-Choice crowd frequently references the issues of incest and rape to justify abortion. This is what led up to the infamous Roe v. Wade ruling by the U.S. Supreme Court. While the court ruled in favor of "Jane Roe" aka Norma McCorvey (who no longer supports abortion rights), one percent of abortions are actually performed due to incest or rape, while ninety-five percent (95%) are performed as a convenient means of birth control. Now... without doubt, incest and rape are appalling offenses; and we should sympathize with those who have been violated. However, should the innocent pre-born child have to pay the brutal cost for someone else’s brutal behavior? Again...we will leave that question to your conscience.

Argument: "Abortion is a woman's concern. Men should have no involvement."

Rebuttal: Such a comment by pro-choice women is rooted in hypocrisy and extreme self-centeredness that is designed to alienate men. In the Roe v. Wade case, the U.S. Supreme Court justices who ruled in favor of legalizing abortion consisted exclusively of men. If men should "have no involvement" in abortion issues, then the decision ruled by the court should be invalid. In any case, it has already been proven by embryonic research that life begins at conception. Thus, another individual is involved in this issue. Secondly, a woman is incapable of impregnating herself. Every child has a mother and father. Should fathers, the God-appointed leaders of their children, have their parental rights and emotional needs dismissed? I think not! And it is time for men to take a stand and defend their unborn children and join the efforts of women who share the same cause.

**Methods of Abortion**

There are numerous methods used to perform abortions. The procedure employed is contingent upon the stage of pregnancy and the size of the unborn baby. Some of these methods include:

1. Suction Abortion
2. Dilation and Curettage (D&C)
3. Dilation and Evacuation (D&E)
4. Saline Abortion (salt poisoning)
5. Prostaglandin Abortion
6. Partial Birth Abortion

The Suction Method: Is the most frequent method of abortion used during the first trimester of pregnancy. A suction tube that is much stronger than a standard vacuum cleaner is inserted into the womb. The force of the suction literally shreds the baby apart as it is vacuumed out and discarded. The picture below illustrates an abortion performed by suction.

![Suction Abortion](image-url)
Dilation and Curettage (D&C): Is used at the end of the first trimester; and is very similar to the suction method. Ring knife forceps (curette) are inserted into the womb which cuts the placenta and baby into pieces. The placenta and baby is then extracted piece by piece and discarded.

Dilation and Extraction (D&E): Is used from 12 to 20 weeks of development. Rather than ring knife forceps, plier-like forceps are inserted into the uterus and clutches the baby; and with a twisting action the unborn child is torn and pulled apart. In order to completely remove the child's body, its spine and skull must be crushed. The picture below illustrates an abortion performed by D&E.

Saline Abortion: Used after 20 weeks -- Utilizing a long needle, a very concentrated salt solution is injected into the baby's amniotic fluid. The unborn baby breathes and swallows the solution and dies over an hour later of salt poisoning. Because of the corrosive effect of the solution, the salt severely burns the internal organs as well as the skin of the unborn child. Within 24 hours the mother delivers a still born baby. There have been a significant number of cases, however, where babies were born alive. In such instances, they are either left to die in the most inhuman manner, or later adopted. The picture below displays a child aborted using saline injection.

Prostaglandin: Used in late term pregnancies; prostaglandin is injected into the amniotic sac which induces the uterus to contract intensely, causing premature labor and delivery. Due to the extreme intensity of the contractions, babies are often killed in the process. The picture below shows a child aborted by the use of prostaglandin.

Partial Birth Abortion: Are performed from the fifth month to full term. Guided by ultrasound, the abortionist inserts forceps into the uterus which grasps the baby's legs. The child is then pulled through the birth canal feet first, leaving only its head inside. At this point, the abortionist uses scissors to puncture the baby's skull. The scissors are then widened to enlarge the hole. A suction
tube is inserted to vacuum out the baby's brain, which collapses the skull. The lifeless child is then entirely removed. The picture below shows a child of partial birth abortion.

Partial Birth Abortion

The several methods of abortions observed here coupled with scientific finding should provide ample evidence that killing an unborn child is not only morally wrong, but utterly unmerciful. With such precise data that confirms that human life begins at conception, it is obvious that at many have conveniently turned blind eyes and deaf ears to the facts. And as if they could do so with impunity, they blatantly discard God's moral laws in order to preserve their agenda.

The Word of God and Abortion

The pro-choice campaign offers a variety of rationalizations to support their viewpoint. But, what does the Word of God say about abortion?

1. Does it claim that a fetus is a person?
2. Does a woman have a right to do anything she wishes with her body?
3. What about pregnancies due to incest or rape?
4. Can an infant be too much of a hardship?

God's word provides very precise answers regarding these matters of contention. Please take note and examine the following scriptures:

Exodus 21:22 -- If men strive, and hurt a woman with child, so that her fruit depart from her, and yet no mischief follow: he shall be surely punished, according as the woman's husband will lay upon him; and he shall pay as the judges determine. 1

Jeremiah 1:5 -- Before I formed thee in the belly I knew thee; and before thou camest forth out of the womb I sanctified thee, and I ordained thee a prophet unto the nations. 1

Isaiah 49:1 -- LISTEN, O isles, unto me; and hearken, ye people, from far; The Lord hath called me from the womb; from the bowels of my mother hath he made mention of my name. 1

Genesis 25:23 -- And the Lord said unto her, "Two nations are in thy womb, and two manner of people shall be separated from thy bowels; and the one people shall be stronger than the other people ; and the elder shall serve the younger." 1

Matthew 1:18 -- This is how the birth of Jesus Christ came about: His mother Mary was pledged to be married to Joseph, but before they came together, she was found to be with child through the Holy Spirit. 1

Luke 1:41 -- And it came to pass, that, when Elisabeth heard the salutation of Mary, the babe leaped in her womb; and Elisabeth was filled with the Holy Ghost: 1
Luke 2:21 -- And when eight days were accomplished for the circumcising of the child, his name was called JESUS, which was so named of the angel before he was conceived in the womb. 1

Ecclesiastes 11:5 -- As thou knowest not what is the way of the spirit, nor how the bones do grow in the womb of her that is with child: even so thou knowest not the works of God who maketh all. 1

Matthew 1:20 -- But while he thought on these things, behold, the angel of the Lord appeared unto him in a dream, saying, Joseph, thou son of David, fear not to take unto thee Mary they wife: for that which is conceived in her is of the Holy Ghost. 1

Psalm 139:13-14 -- For you formed my inward parts; You covered me in my mother's womb. I will praise You, for I am fearfully and wonderfully made; Marvelous are Your works, And that my soul knows very well. 1

Jeremiah 20:17 -- Because he slew me not from the womb; or that my mother might have been my grave, and her womb to be always great with me. 1

Job 31:15 -- Did not he that made me in the womb make him? and did not one fashion us in the womb? 1

Psalms 24:1 -- The Earth is the Lord's, and everything in it, the world, and all who live in it. 2

Psalms 100:3 -- Know ye that the Lord he is God: it is he that hath made us, and not we ourselves.... 2

Job 12:10 -- In his hand is the life of every creature and the breath of all mankind. 2

Deuteronomy 24:16 -- The fathers shall not be put to death for the children, neither shall the children be put to death for the fathers: every man shall be put to death for his own sin. 3

Proverbs 6:16-17 -- Of the seven things the Lord hates, one of them is hands that shed in nocent blood. 3

Psalms 127:3 -- Children are a blessing and a gift from the Lord. 4

Isaiah 45:9-12 -- "Does the clay say to the potter, 'What are you making?' Does your work say, 'He has no hands?' Woe to him who says to his father, 'What have you begotten?' or to his mother, 'What have you brought to birth?' This is what the Lord says --- the Holy One of Israel, and its Maker: Concerning things to come, do you question me about my children, or give me orders about the works of my hands? It is I who made the earth and created mankind upon it.” 4

These nineteen passages of scripture are among many others that contain overwhelming evidence that abortion is morally wrong. If you are a woman who is considering an abortion, I appeal to you to seek God for guidance and accept responsibility for the life of your child. If you are a woman who has had an abortion, I have great news. I want you to know that God still loves you and has provided a way for your sins to be forgiven once and for all. For the pro-choice camp who refuses to acknowledge God and the veracity of His word, you can rest assured that you will die in your sins.

Planned Parenthood: Infanticidal Terrorist

In this day and age of global terrorism, it is evident that terrorist organizations such as Al-Qaeda, Hamas, and Hezbollah are on a mission to destroy vast numbers of innocent people who do not subscribe to their agenda. It has been this nature of moral wickedness that led to the tragic events of September 11, 2001.
Similar to the aforementioned terror networks, we have another terrorist organization that is responsible for murdering countless number of innocent people. It is a cold, calculating network that subtly camouflages its profit making, population control agenda behind a woman’s so called "reproductive rights". This terror network is known as the Planned Parenthood Federation of America and its consortium of abortion clinics. In a likened manner that reflects the beehive of terror groups in the Middle East, Planned Parenthood’s empire of evil has made a mother’s womb the most dangerous place for an innocent unborn child in the United States.

“What distinguishes the terrorist from the ordinary warrior is that the terrorist will consciously target innocent human life. What is done in the course of an abortion? Someone consciously targets innocent human life.”

-- Alan Keyes (Rep. U.S. Senate)

For the unsuspecting and uninformed, the general consensus is that PPFA is a benevolent "women's health center". Thus, Planned Parenthood’s population control agenda may be a difficult and perplexing concept for many people to accept. With that in mind, it is necessary to further expose the underlying objectives of Planned Parenthood. Let’s consider the following statements:

1. As stated in Planned Parenthood’s Federation Declaration of Principles, it is their goal “to combat the world population crisis by helping to bring about a population of stable size in an optimum environment in the United States.”
2. Planned Parenthood’s Annual Report for 1993-94 stated: "In February 1994, PPFA launched a new initiative to ensure Planned Parenthood’s continuing leadership in global population issues .”
3. According to the PPFA mission statement, they believe that "self-determination will contribute to an enhancement of the quality of life, strong family relationships, and population stability."
4. It is their policy to "advance understanding of the interrelationship between population growth and the quality of human life....Therefore, the Federation is committed to providing education in the communities it serves to enable people to understand the scope of world population growth and its impact on the economic, political, social, and physical environment we must share.”

In the same manner that North Korea and Iran are attempting to deceive the International community concerning their nuclear ambitions, these comments by Planned Parenthood serve a similar purpose. It is the goal of PPFA to define their population control program in a fashion that cloaks their true and ultimate objectives. And that is to exterminate certain ethnic groups, the poor and other "undesirables" using the process of sterilization, birth control, and abortion. Having said that, let’s take a close look at Planned Parenthood’s founder, Margaret Sanger.

Margaret Sanger (1883-1966), founder of Planned Parenthood, was a devout white supremacist and promoter of birth control. She was also an advocate of eugenics. Eugenics is defined as, “a science concerned with improving a breed or species, especially the human species...” Her genetically engineered master race plan adopted the concept of eugenic sterilization that targeted certain ethnic groups who were designated "unfit" for life.
The following excerpts are a reflection of Sanger’s true character and elitist ideology:

“Slavs, Latin, and Hebrew immigrants are human weeds...a deadweight of human waste...Blacks, soldiers, and Jews are a menace to the race.” “Eugenic sterilization is an urgent need...We must prevent multiplication of this bad stock.” (Margaret Sanger Birt Control Review April 1933)

“We should hire three or four colored ministers, preferably with social-service backgrounds, and with engaging personalities. The most successful educational approach to the Negro is through a religious appeal. / We don’t want the word to go out that we want to exterminate the Negro population, and the minister is the man who can straighten out that idea if it ever occurs to any of their rebellious members.” (Margaret Sanger’s letter to Dr. C. Gamble December 19, 1939)

“(Our objective is) unlimited sexual gratification without the burden of unwanted children...(Women must have the right) to live...to love...to be lazy...to be an unmarried mother...to create...to destroy...The marriage bed is the most degenerative influence in the social order./..The most merciful thing that a family does to one of its infant members is to kill it.” (Margaret Sanger Th e Woman Rebel Volume I, Number 1)

“Our failure to segregate morons who are increasing and multiplying...demonstrates our foolish and extravagant sentimentalism...Philanthropists encourage the healthier and more normal sections of the world to shoulder the burden of unthinking and indiscriminate fecundity of others; which brings with it, as I think the reader must agree, a dead weight of human waste. Instead of decreasing and aiming to eliminate the stocks that are most detrimental to the future of the race and the world, it tends to render them to a menacing degree dominant...We are paying for, and even submitting to, the dictate of an ever-increasing, unceasingly spawning class of human beings who never should have been born at all.” (Margaret Sanger The Pivot of Civilization 1922)

"There is only one reply to a request for a higher birthrate among the intelligent, and that is to ask the government to first take the burden of the insane and feeble-minded from your back. (Mandatory) sterilization for these is the answer.” (Margaret Sanger Birth Control Review October 1926)

Excerpts courtesy of The Interim

These are just a few of Margaret Sanger's appalling racial and eugenic annotations. While Planned Parenthood may appear less stringent than their founder, their objectives are the same. An examination of abortion statistics should shed some light on Planned Parenthood's true intentions.

According to the Center for Disease Control, Blacks and Hispanics have a disproportionately higher percentage of abortions when compared to other racial groups in the United States. Delores Grier, Psychologist and President of American Black Women Against Abortion states, "78% of abortion centers have been located in Black and minority communities." Because the general public is oblivious of these facts, PPFA continues to carry out Sanger's philosophy without challenge.

"Several years ago, when 17,000 aborted babies were found in a dumpster outside a pathology laboratory in Los Angeles, California, some 12-15,000 were observed to be black.” -- Erma Clardy Craven, Social Worker and Civil Rights Leader

It is interesting to note that Planned Parenthood has failed to denounce Margaret Sanger's brutal racial philosophies. Instead, they deceitfully portray her as an eminent figure. For example, Planned Parenthood's first abortion clinic, which is located in New York City, was named after Margaret Sanger. In addition, PPFA established a prestigious “Margaret Sanger Awards” program that is designed to honor those who promote and support their cause.
The following quotes further demonstrate that Planned Parenthood embraces Sanger's legacy with dignity:

"I believe Margaret Sanger would have been proud of us today if she had seen the directions that we have most recently in this organization taken." -- Faye Wattleton, former President of PPFA, at Planned Parenthood's annual luncheon in St. Louis, on May 2, 1979.

"First, as you know, as we celebrate the 100th birthday of Margaret Sanger, our outrageous and our courageous leader, we will probably find a number of areas in which we may want to find more about Margaret Sanger than we thought we wanted to know ... we should be very proud of what we are and what our mission is. It is a very grand mission ... abortion is only the tip of the iceberg." -- Excerpt from the transcript of the address given by Faye Wattleton, former President of PPFA, at a luncheon in St. Louis, Missouri, on February 5, 1979.

(Quotes courtesy of: Human Life International)

Another issue of Planned Parenthood that requires exposing is their financial gains. While PPFA alleges it is a non-profit health care organization, they have made fortunes killing millions of innocent unborn babies. According to Planned Parenthood’s Annual Reports from 1987 to 2003, they have brought in $502,800,000 in profits. Yet, in spite of their hefty gains, each year Planned Parenthood continually petitions for more money. Since 1987, PPFA has received at least 2.5 billion dollars from taxpayers alone. In addition, Planned Parenthood has secured billions of dollars from donations.

The diabolical schemes of Planned Parenthood appear to have no boundaries as they attempt to promote their agenda by any means necessary. For example, their jarring response to the tragedies of September 11, 2001 was to donate patriotic red, white, and blue condoms. In addition, they offered free abortions to the women of New York City, including those who lost their loved ones in the World Trade Center. On a day where 3000 innocent people lost their lives, Planned Parenthood had the temerity to update the toll of victims to include innocent unborn babies. Al-Qaeda used jet airliners to target innocent people in buildings; Planned Parenthood uses knives, forceps, and chemical weapons to target innocent unborn babies in the womb.

Planned Parenthood continued its contemptible publicity tactics in May, 2002 by launching their electronic Mother's Day cards. One particular e-card had the slogan, "every child a wanted child". The hypocrisy behind such a statement is gloriously incredible considering that PPFA is the largest abortion provider in the United States. For every adoption referral, Planned Parenthood performs 80 abortions! Let's also be reminded that this is an organization whose founder, Margaret Sanger, had philosophies rooted in racism, population control, and eugenics.

During the holiday season of 2002, Planned Parenthood had the audacity to introduce its Christmas cards and T-shirts that featured the words, "Choice on Earth". In the PPFA Dictionary, the word "choice" is simply defined as "the freedom to kill an unborn child". Planned Parenthood's slogan is clearly in contradiction of the true meaning of Christmas. Jesus Christ came to bring life and healing, whereas it is the mission of PPFA to profit from destruction and death. For those of us who believe in the true and only God of the Bible, it should be clear that Planned Parenthood is an organization of demonic influence. As the Word of God states, "The Thief comes to steal, kill, and destroy". (John 10:10)

In these last days, Satan and his terrorist partner in crime, Planned Parenthood, are becoming more brazen and proud of their sadistic works. In its ongoing marketing campaign, PPFA released its latest product in July, 2004. It is a T-shirt for post-abortive women that boldly proclaim, "I had
an abortion." While many people have rightfully found the T-shirt grossly offensive, Planned Parenthood reports that numerous women have purchased it; even selling out in some of their slaughter clinics. How any woman can wear such a shirt with pride and zeal is beyond description. Murdering one's own child is not something to be proud of... unless of course one is a disciple of Margaret Sanger's radical philosophies that originated from the depths of Hell.

**Raging War Against Abortion and Planned Parenthood's Network of Terror**

While terrorism has been occurring for numerous years... admittedly, on September 11, 2001, the United States "got caught with its pants down". As a result of our country's complacency and incognizance, Al-Qaeda terrorist were able to successfully hijack four aircraft, killing 3000 innocent people. This tragic event was a "wake up call" to the dangers of national and global terrorism. It was a horrific reality that prompted President Bush's war against terror.

Similarly and sadly, many in the Christian Church have been deafening silent on the issue of abortion. In light of the multitudes of innocent unborn babies being murdered via abortion, how long must it be before Christians "wake up" and take a stand for those who cannot speak for themselves? With barbaric organizations such as Planned Parenthood on the prowl, Christians have the moral obligation to speak out and take action against those who kill defenseless children. We cannot afford to be complacent spectators.

Quoting Elie Wiesel, a Nazi Holocaust survivor: "I swore never to be silent whenever and wherever human beings endure suffering and humiliation. We must always take sides. Neutrality helps the oppressor, never the victim. Silence encourages the tormentor, never the tormented. Sometimes we must interfere when human lives are in danger, when human dignity is in danger."

That must be our vision. Those who remain in a state of apathy will have the blood of aborted babies on their hands. Christians who are ready to get involved and rage war against abortion and Planned Parenthood, I encourage the following:

1. Pray, identify and use the specific talents God has given you.
2. Counsel women who are considering abortion.
3. Consider activism.
4. Do personal research and share your knowledge with others.
5. Purchase Pro-Life products. Many are available from Heritage House (www.hh76.com).
6. Contact Congress, legislators and other elected officials.
7. Distribute Pro-Life literature.
8. Support a Crisis Pregnancy Center in your area.
10. Attend Pro-Life conferences such as National Right to Life (www.nrlc.org) and March for Life (www.marchforlife.org).

In addition to the above, contact the American Life League (www.all.org) and STOPP International (www.all.org/stopp) to learn what you can do to defeat Planned Parenthood.

**Pro-Life Quotes**

*When we look to the unborn child, the real issue is not when life begins, but when love begins.*
-- Robert P. Casey

*The only thing necessary for the triumph of evil is for good men to do nothing.*
-- Edmund Burke
Every legislator, every doctor, and every citizen needs to recognize that the real issue is whether to affirm and protect the sanctity of all human life, or to embrace a social ethic where some human lives are valued and others are not. As a nation, we must choose between the sanctity of life ethic and the "quality of life" ethic.

-- Ronald Reagan

Never be afraid to stand with the minority which is right, for the minority which is right will one day be the majority; always be afraid to stand with the majority which is wrong, for the majority which is wrong will one day be in the minority.

-- William Jennings Bryan

Right is right, even if everyone is against it, and wrong is wrong, even if everyone is for it.

-- William Penn

We mourn ... the two most damaging Supreme Court decisions in our nation’s history. In 1857, the Supreme Court denied personhood the black Americans in the infamous Dredd Scott decision. In 1973, seven people decided that a mother has a constitutional right to have her baby killed up until the moment of birth.

-- Gary L. Bauer

We who as a people always knew that abortion was the killing of an unborn baby were brainwashed to believe that the destruction of the "products of conception" or the destruction of a "fetus" is not the same thing as killing an unborn baby. Traditional medical definitions were deliberately changed in order to do away with our moral repugnance towards abortion.

-- C. Everett Koop, M.D., former U.S. Surgeon General

I think it’s safe to say that the entire abortion industry is based on a lie ....I am dedicated to spending the rest of my life undoing the law that bears my name.

-- Norma McCorvey, plaintiff "Jane Roe" in the Roe vs. Wade case

Christian Medical & Dental Association (CMDA) holds firmly that God is the Creator of life, that life begins at conception, and that all life is of infinite value. We support measures to protect life from its earliest beginnings.

-- CMDA

There is a day coming when we will hear the voice from within the womb, when its own authentic pain will be undeniable, when we will know with certainty that it is saying, "I want to live. I have a right to live. I do not need your permission to live."

-- Mary McAleese

A baby is God’s opinion that life should go on.

-- Carl Sandburg

Dante once said that the hottest places in hell are reserved for those who in a period of moral crisis maintain their neutrality.

-- John F. Kennedy
